ENGINEERING ASSESSMENT CELL (SYNTHETIC)

Structural Assessment Report

Assessment Ref: SR-2024-932

Prepared for: Green Thread Garments Ltd.

The inspection team visited all production floors, the cutting section, the finishing section and the store.

Chemical storage is separated from the main building and fitted with secondary containment.

Emergency lighting, exit signage and the fire alarm panel were tested in the presence of factory management.

Chemical storage is separated from the main building and fitted with secondary containment.

Workers interviewed during the visit confirmed that evacuation routes are kept clear during working hours.

Chemical storage is separated from the main building and fitted with secondary containment.

Load-bearing columns on floors 1 to 4 were checked for cracks; no new cracks were recorded since the last visit.

Date of assessment: 3 December 2024

Next assessment due by: 3 December 2026
